About us

EYE ON TECHNOLOGY is a multi-dimensional company, offering high-end turnkey security solutions, system integration and a wide range of related products and services. Based in Abu Dhabi, we are firmly established in the Middle East, and have been supplying the government sector, the military and residential homes as well as providing technical and operational support to corporates across the UAE and the GCC countries since 2004.

Products

- Security Systems
- Medical Equipment
- Office Furniture and Stationery
- Professional and Tactical Wearing
- Electronic and Electrical Equipment
- Police Dog Training Equipment
- Armored Vehicles
- Weapon Storage
- Tracking
- Anti-Riot Gear
- Crime Scene Equipment

Services

Eye on Technology works closely with our clients to design and provide comprehensive support for state-of-the-art projects. Our services include:

- Consultancy
- Design and Engineering
- Supply and Installation
- Testing and Commissioning
- Training
- Maintenance and Support

Perimeter Security Solutions

Our fully fledged and custom designed Perimeter Security Solutions provide integrated systems that combine perimeter and internal security. The need for advanced security solutions has become more prevalent due to the increase of sophisticated methods of intrusion. Each system enables the user to have real-time information about his site at his fingertips.

Perimeter Intrusion and Detection Devices

Our Perimeter Intrusion and Detection Devices are intelligently designed to filter signals so that only real intrusions will trigger the alarm, avoiding false detection. They guarantee high performance, reliability and added value to our clients. The product range includes:

- ▶ Passive Infrared Beam
- ▶ Microwave Links
- ▶ Fiber Sensors
- ▶ Buried Cable
- ▶ Laser Sensor
- ▶ Small Range Radars
- ▶ Fence Sensor Cables (anti-climb , anti-cut, anti-vibration)

Border Security

Border Security is the most effective way of preventing the modern-day intruder from penetrating your territory and can be applied to unlimited distances. We offer:

- ▶ Sensors
- ▶ Steel Fences
- ▶ Barbed Wire Tapes
- ▶ Vegetable Fences
- ▶ Buried Cables
- ▶ Cargo Control and Inspection
- ▶ Airport Security

Access Control

User-friendly systems that include additional features and administrative capabilities.

- ▶ Keypads
- ▶ Biometric Readers
- ▶ Proximity Card Readers
- ▶ Hands Free Video Intercom Systems
- ▶ Long Range Readers
- ▶ ID Card Printer
- ▶ Vehicle Remote Tags
- ▶ Fingerprints

Command and Control Center

Our centers include:

- ▶ Video Wall
- ▶ Plasma & LCD
- ▶ Touch Screen
- ▶ Customized Work Stations
- ▶ Structured Cabling and Rack System
- ▶ Fully integrated and advanced software

Camera Surveillance System

Our revolutionary camera surveillance system enables live, real-time viewing of multiple cameras and sites that can be monitored day and night and controlled from one single command center as well as supplementary control spots.

CCTV & IP Cameras

- ▶ Housing Cameras
- ▶ Dome Cameras
- ▶ PTZ Cameras
- ▶ Megapixel Cameras
- ▶ Covert Cameras
- ▶ 360° Cameras

The 360° cameras record everything in view over a large area. They allow you to go back in time and look in a different direction to where you were actually looking when an incident occurred.

Physical Security

Top notch systems fit for various holdings such as the military base, VIP palaces, prisons, warehouses, embassies, factories, power plants and logistic facility airports.

- ▶ Metal Detectors (walk-through and hand-held)
- ▶ Explosive Detectors (scanner and sniffer)
- ▶ Number Plate Recognition System
- ▶ Facial Recognition System
- ▶ Under-Vehicle Surveillance System
- ▶ Tire Killers
- ▶ Road Blockers
- ▶ Bollards (decorative and crush rated)
- ▶ Turn Styles
- ▶ Gate Barriers
- ▶ X-ray Machines

Our parcel and baggage inspection systems utilize complementary technologies and transmission X-rays to quickly detect even the most elusive threats or contraband in parcels of all sizes and our X-ray machines reveal organic materials and add clarity to expedite inspection. They are safe and non-intrusive.

Maritime Security

Eye on Technology's Maritime Security programs protect and preserve the efficiency of marine transportation against unlawful interference and terrorist attacks. We offer:

- ▶ Remotely Operated Vehicles
- ▶ Sonar Systems
- ▶ Water Barriers
- ▶ DIS (Diver Interdiction System)
- ▶ Radar and Thermal Imaging

Armored Vehicles

Eye of Technology also delivers the toughest and most innovative vehicles for defense and civil protection. All our armored vehicles are uniquely designed with exceptional mobility and advanced technology to meet the demands of the military and civil defense units.

Speciality Vehicles

We supply Specialty Vehicles of unmatched quality to various sectors such as media production, emergency response units, the medical sector and many more. Each vehicle is expertly designed, engineered and manufactured with the promise of high performance and reliability.

EOD (Explosive Ordonants Disposal)

With the increasing threat of explosive attacks, Eye on Technology provides solutions that are safe, easy to deploy and effective on target. The pourable tactical disruptors reduce the amount of training required for bomb technicians.

CBRN (Chemical, Biological, Radiological and Nuclear)

With the most trusted solutions for treating and managing CBRN threats, Eye on Technology safeguards military personnel, facilities, communities and the environment. Our solutions are highly sought after by leading security planners for both public safety and government organizations across the UAE and GCC countries.

K9

Eye on Technology supplies the following for professional police dog training:

- ▶ Bite Suit and Helmet
- ▶ Leather Hand Protector
- ▶ Hidden Bite Sleeve
- ▶ Leg Sleeve
- ▶ Scratch Pants
- ▶ Training Vest
- ▶ Nylon Training / Scratch Vest
- ▶ Leather or Invisible Police Muzzle German Shepherd
- ▶ Agitation Stick
- ▶ Schutzhund Blinds
- ▶ Cargo Pouches
- ▶ Military Working Dog Crate
- ▶ Agility Products
- ▶ Awards
- ▶ Food

Weapon Storage

Our portable Arms Vaults are secure, fully compliant and cost effective, making them perfect for weapons, ammunition and explosives storage.

Advantages:

- ▶ Streamlined acquisition
- ▶ Turn-key solutions
- ▶ Custom manufactured
- ▶ Easy to move and low maintenance

Options:

- ▶ Intrusion Detection Systems (IDS)
- ▶ Weapons Racks
- ▶ Restrooms
- ▶ Interior Divider Walls

Electronic Warfare

Bomb Jammers

Few companies can match the scientific genius when it comes to our Bomb Jammer technology. Eye on Technology offers the most powerful systems designed to combat all Radio Controlled Improvised Explosive Devices such as car bombs, roadside bombs and assassinations. These go beyond cellular frequencies so as to combat all RF threats.

Cellular Intercept

Government and law enforcement agencies can attain Communications Intelligence with Cellular Intercept. This passive, off-the-air Cellular Monitoring system can achieve cellular interception at five different frequency bands, investigate phone numbers, monitor calls and record them onto the hard drive for future retrieval.

Security Intelligence

- ▶ High tech security and safety technologies
- ▶ Communication control solutions for prisons
- ▶ Signal detection
- ▶ Jamming systems for vehicles, backpacks, stadiums and more.
- ▶ Fiberscopes
- ▶ Dirty bomb detectors

Tracking Intelligence

Our Tracking Intelligence systems assist high profile investigations with their vast array of forensic capabilities. They allow covert audio surveillance through wireless remote monitoring.

Prison Jammers

Advanced solutions for control of illegal cell phones in prisons. We offer multiple approaches that differ in operation and design.

Tactical Software

Designed for tablet and laptop access and utilizes satellite communications infrastructure for secure and continuous operation anywhere in the world.

Mobile Hardware

Portable, low-cost communications device that can be installed in aircrafts, vehicles and ships.

- ▶ Whisper
- ▶ Packmaster Lo-Pro

Telecom/ Tracking

Reaction is crucial in any crisis situation. Eye on Technology is a leading provider of fast, efficient tracking solutions as well as communications technology for the corporate, defense and consumer sectors.

Tracking solutions for:

- ▶ Personnel
- ▶ Vehicles
- ▶ Aircraft
- ▶ Maritime vessels

Secure web-based application that includes

- ▶ Full tracking capability
- ▶ Situational awareness
- ▶ Operational command and control
- ▶ Emergency response
- ▶ Comprehensive post-operation debriefing

All communications use a secure private satellite network with point-to-point encryption.

Anti-Riot

In the current global climate of growing civil unrest there is a need for 360 degree protection in real combat situations. We bring decades of experience in production and the highest quality materials to anti-riot combat.

- ▶ Light-weight riot gear and equipment
- ▶ Riot shields
- ▶ Horse and dog protection
- ▶ Tactical and concealed ballistic models
- ▶ Training equipment

Crime Scene

Eye on Technology supplies the most sophisticated crime scene investigation equipment, police equipment and detainee custody products to law enforcement agencies in the Middle East.

- ▶ Fingerprint kits
- ▶ Police duty gear & protective clothing
- ▶ Narcotic identification tests
- ▶ Forensic tests
- ▶ Forensic evidence packaging
- ▶ Ballistics
- ▶ Body bags & Sheeting
- ▶ Evidence collection kits
- ▶ Scene marking
